Hot Leathers saddlebags and sissybar bags

GOOD SPORTS has a wide selection of Hot Leathers brand simulated leather saddlebags and sissybar bags. The line of saddlebags offered by Hot Leather are waterproof, have heat protection panels and a unique, easy zip-off feature for quick and easy removal from the bike. The bags zip off leaving the central piece in place on the bike, allowing the bags to be carried by the built-in handles.

Hot Leathers says it has designed its range of sissybags to cater for those riders who prefer not to use saddlebags. The bags include one- and two-piece designs which fit together to expand their capacity. There is also the option of roll-up or handled bags for use with sissybars.
