

SUCKER PUNCH SALLY'S: Well, ambitious yes, but maximum cool factor too ... this is a scale model of a quarter mile board track race facility that Sucker Punch Sally's are trying to get built at Sturgis. Like all exciting and visionary ideas it is all subject to their being able to raise sufficient investment and sponsorship Dollars. That is never easy, and is going to be especially tough at this time, but as an exciting addition to the market and to the Sturgis Motorcycle Rally, we certainly wish them well!
